Dementia Live® is an experience that immerses participants into what life might be like living with cognitive impairment and sensory change. Utilizing specialized gear that simulates dementia specific changes that include altered eyesight, hearing and tactile sensation, this safe experience is a powerful and effective tool to strengthen care partner understanding of and empathy for residents.

Gaining a first-hand understanding of anxiety, isolation, frustration, confusion, and more, Dementia Live uniquely walks participants from the “AHA” moment to empowering care partners with tools to improve communication, care processes, relationship building and the environment.

This workshop is made available in whole or part with funding from the Federal Older Americans Act and Michigan Department of Health and Human Services/ The Bureau of Aging, Community Living, and Supports through AgeWays Nonprofit Senior Services.
